Field Crops Research

Subject Index

Alfalfa, 247
Azospirillum brasilense, 253
Azospirillum lipoferum, 253

Barley, 11, 51, 63
Biomass, 51
Brassica, 95
Breeding, 149
Burley tobacco, 121, 129

Calibration, 33
Cereal, 3
Chickpea, 103
Cicer arietinum, 103
Classification, 25
Competition, 149
Crop rotation, 3
Cutting stage, 161

Date of sowing, 169
Deep water, 193
Defoliation timing, 137
Drought, 51
Drought resistance, 103
Drought tolerance, 215

Endosperm, 185

Fiber quality, 137
Flood, 193
Flue-cured tobacco, 121, 129
Fodder, 161
Forage dry mass, 253

Genotype × environment interaction, 11, 25
Germination, 137, 185
Gossypium, 137
Grain, 161
Grain-filling, 39
Grain growth, 63
Grain mass, 39
Grain yield, 225
Grindelia camporum, 77
Growth analysis, 63
Gumweed, 77

Heat tolerance, 185
Helianthus annuus, 235
Hordeum, 11
Humid pampas, 253
HVI, 137

Ideotype, 149
Inoculation, 253
Integrated farming, 3
Intercropping, 85
Irrigation, 169

Juvenile traits, 113

Leaf elongation rate, 215
Leaf rolling, 215
Legume, 3
Line-source sprinkler, 103
Lolium, 33

Maleic hydrazide, 121, 129
Micropropagation, 113
Models, 85
Moisture response, 103
Multivariate analysis, 33

Near infrared spectroscopy, 33
New crop plant for arid/saline land, 77
Nicotiana tabacum, 121, 129
Nitrogen uptake, 193

Oats, 51, 63
Optimization, 85
Organic farming, 3
Oryza, 193

Panicle development, 225
Partitioning, 235
Partitioning coefficient, 235
Pattern analysis, 11
Phenology, 63, 225
Photosynthesis, 95, 129
Phytomass, 85
Pine rosin substitute, 77
Plant breeding, 25

Plant competition, 85
Principal component analysis, 25
Puccinia melanocephala, 113

Rice, 193, 205, 215, 225
Roots, 51, 149, 205
Rust resistance, 113
Rye grass, 33

Salinity, 247
Seed, 185
Seed yield, 85
Senescence, 129
Setaria italica, 253
Solar radiation, 169
Somaclonal variation, 113
Source–sink relationship, 39
Spring wheat, 169
Starch, 129
Stem reserves, 63
Sucrose, 129
Sugarcane, 25, 113
Sunflower, 235
Survey, 193

Temperature, 169
Transpiration, 95
Triticale, 51, 63, 161
Triticum, 39, 169, 185

Undercropping, 3

Verticillium wilt disease, 247

Water extraction, 205
Water stress, 95, 205, 215, 225
Water-use efficiency, 95
Wheat, 39, 51, 63, 149, 185

Yield, 95, 113, 149
Yield component, 11
